An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kirsten Grueneberg on 11/19/03.

The application has been amended as follows:

Cancel claims 1-10 and 16-20.

In claim 11 in the last line after "resin" insert:

--- after distillation of unreacted acetone, by-produced water and alkylmercaptan as an auxiliary catalyst ---

The following is an examiner's statement of reasons for allowance:

The translation removes J'899 as prior art. Meurer doesn't employ ion exchange resin after distillation. This apparently accounts for absence of the NMR peaks (see example III-1 versus comp III-1).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
